Function Skoonmaakvlamme

The distribution of the max temperatures among the identified fire episodes are as follows:

```
##
##
##      summary(maxtemps)
## -----
## Min.      21.50
## 1st Qu.    31.50
## Median     36.50
## Mean       35.84
## 3rd Qu.    42.00
## Max.       46.50
```

The distribution of the fire-start chimney temperatures among the identified fire episodes are as follows:

```
##
##
##      summary(starttemps)
## -----
## Min.      16.50
## 1st Qu.    20.00
## Median     21.50
```

## Mean	22.52
## 3rd Qu.	24.50
## Max.	32.50
